EDUCATION

Vellore Institute of Technology

2023 – 2027

B.Tech in Computer Science and Engineering

CGPA : 8.75

CSE(Artificial Intelligence and Machine Learning)

TECHNICAL SKILLS

Languages: Python, C++, SQL

Frameworks: FastAPI, Flask, Streamlit, REST APIs

Machine Learning: Deep Learning, Generative AI, LLMs, RAG, Fine-tuning, NLP, Scikit-Learn, PyTorch

Databases: PostgreSQL, SQLite

Tools/Cloud: Git, GitHub, Postman, VS Code

Coursework: DSA, OOP, DBMS, OS, Computer Networks

WORK EXPERIENCE

Techlene Software Solutions Pvt. Ltd., India

May 2026 – June 2026

AI Developer Intern

Remote

- Built full-stack AI applications end-to-end, including an invoice-reading tool, a chatbot for querying databases in plain English, and a speech transcription and sentiment analysis tool.
- Worked across AI components of each project, from planning the approach to writing, testing, and fixing the code.
- Learned how to make AI tools more reliable and useful for real users, and how to work independently to deliver working software on a deadline.

PROJECTS

AI Proposal Evaluation System (R&D) | Python, FastAPI, Scikit-Learn, SHAP, Generative AI

- Built a **full-stack ML evaluation platform using FastAPI** (backend) and Streamlit (frontend) to analyze R&D proposal PDFs and automate funding recommendations.
- Designed an **ensemble scoring model** with uncertainty estimation and explainability to evaluate proposal quality and support more reliable decision-making.
- Integrated **Generative AI and automated report generation** to produce structured evaluation summaries while storing proposal and evaluation data in SQLite.

Autonomous ColdMail AI — Python, AI Agents, LangGraph, FastAPI, ChromaDB

- Built a **multi-agent outreach platform** using LangGraph to automate company research, resume/JD parsing, semantic skill matching, personalized email generation, quality evaluation, human approval, and email delivery.
- Implemented **RAG-based personalization** with ChromaDB and embeddings, SQLite for contextual retrieval, persistent workflow state, and efficient model inference.
- Developed a **production-oriented FastAPI backend** with authentication, retry handling, checkpointed human-in-the-loop workflows.

CERTIFICATIONS

Generative AI Using IBM Watsonx (IBM)

June 9, 2025

Oracle Cloud Infrastructure 2025 Certified Data Science Professional

September 25, 2025

Microsoft Azure Data Fundamentals (DP-900)

June 28, 2025

ACHIEVEMENTS

Machine Learning Lead, Google Developers Group Club (GDGC)

Oct 2025 – Sep 2026

Ranked among the **Top 45 of 950 teams** in the Internal Round of Smart India Hackathon 2025.

2nd Runner-up at CyberShield Hackathon organized by WiCys Club.

Open-source Contributor at GirScript Summer of code.
